

# Cisco DX80

#### **Product Overview**

Discover a delightful new approach to working that is simple to use and offers an uncompromised collaboration experience. The Cisco DX80 brings everything you need to be productive in one sleek integrated device. All you need is one screen on the desk. Experience best in class HD video and expanded collaboration capabilities such as extensive UC features, Android applications and email.

- · Dedicated, always-on 1080p High-Definition video communication system
- · Fully-featured IP Phone that registers to Cisco UCM call control
- · High-quality audio system for speakerphone
- 23-inch 16:9 screen provides an engaging experience for video calls and running apps
- Multi-touch capacitive touchscreen provides elegant and powerful user interface
- Security Enhanced Android operating system combined with Cisco's end-to-end security features gives peace of mind to network administrators
- · Cisco Extension Mobility supports multiple profiles allowing hot-desking and shared workspaces
- Many options to personalize your experience and maximize productivity; from wallpapers, widgets, and screen layouts to the ability to use a variety of Bluetooth and USB accessories
- · Self-provisioning device is simple for users to take out of the box and start using quickly
- Native Cisco AnyConnect VPN makes connecting to the workplace from the home office a snap

Table 1. Features and Benefits

Feature	Benefit
Design features	<ul> <li>Install in minutes: The DX80 is an integrated device with all on-screen controls. Just plug the power cable and Ethernet (or use Wi-Fi). With self-provisioning your device will register itself. Authenticate to complete the setup.</li> </ul>
	<ul> <li>In-person video: With a large 23-inch screen, best of class video and audio capabilities the DX80 allows for life-like experiences.</li> </ul>
	<ul> <li>Intelligent Audio: With a set of microphone arrays the DX80 is capable of greatly attenuating sound disturbances in your environment and ensures the best sound quality to the other person on the call.</li> </ul>
	<ul> <li>Top-notch monitor: The DX80 can be used as an external monitor and be plugged to a laptop. It has high contrast LED panel with wide viewing angle and a full touch surface.</li> </ul>
	<ul> <li>All controls on screen: Calls can easily be placed from the screen itself. There is no need for an external device.</li> <li>Options are also accessible while on a call to ensure the participants can stay engaged during a conversation.</li> </ul>
	<ul> <li>Document camera: The camera located on top of the DX80 can be tilted down to allow sharing of physical content and drawings.</li> </ul>
	<ul> <li>Inclinable screen: As it is also a tablet capable of running applications, the DX80 accommodates users who want to sit and use the DX80 comfortably at their desk. The device can be pulled easily towards the user and reclines to a 40° angle to the table.</li> </ul>
Application features	Share multimedia and presentation at the touch of a button: While on a call the DX80 allows to see the laptop screen and share it instantly in full HD with the on-screen control bar.
	<ul> <li>Easy swap between computer and DX interface: Swap between the monitor mode and the DX80 interface by a simple press of the "source" button.</li> </ul>
	<ul> <li>Intelligent Proximity: The DX80 supports the Intelligent Proximity for mobile voice. Contacts on the mobile can be seen from within the DX80 interface and voice calls can be handoff from the mobile to the DX80.</li> </ul>
	<ul> <li>WebEx and Jabber integrated: The DX80 already comes with a Cisco Collaboration applications installed for instant messaging and Web conferencing.</li> </ul>
	<ul> <li>Compatible with Google Android applications: The DX80 can run any Android application on its large touch screen. Users can for example access their emails and calendar.</li> </ul>
Performance features	The system offers simultaneous HD video and content sharing.
	RGB input is compatible with all modern PC and Mac computers.
	<ul> <li>Audio is communicated through full-duplex, full-band audio (CD quality).</li> </ul>
	Provisioning and self-configuration are easy with Cisco UCM.

Supported PC input resolutions	Up to 1080p

Feature	Benefit
Ergonomic design	The stand is retractable in the upright position for easy transportation
Ligonomio docign	The screen can be tilted from an angle of 11° to 50° from the vertical
	Camera can be tilted from an angle of -5° to 70° from the display
	The connector lid can be fully lifted and will lock to the back of the unit with magnets
Audio	Loudspeaker mounted on the front panel and user facing
	4 digital microphones mounted in 2 arrays
Front camera	63° horizontal field of view
	38° vertical field of view Resolution: 1080p30
	F 2.2
	Instant Focus based on face detection
	Privacy shutter
Operating system	Android OS 4.1.1 (Jellybean)
Processor	TI OMAP 4470 1.5GHz dual-core ARM Cortex-A9 processor
Storage	8-GB eMMC NAND Flash memory (embedded multimedia card; nonvolatile)
Memory	2-GB RAM; Low Power Double Data Rate Synchronous Dynamic Random-Access Memory (LPDDR2 SDRAM)
Ports and slots	High-Definition Multimedia Interface (HDMI) type A port for PC or Mac video input
	High-Definition Multimedia Interface (HDMI) type A port output (reserved for future use)
	High-speed USB 2.0 ports:      Three standard type A parts (for keyboard, mayor, thumb drive and mamory stick, and baddest connectivity).
	<ul> <li>Three standard type A ports (for keyboard, mouse, thumb drive and memory stick, and headset connectivity)</li> <li>One standard type B port (reserved for future use)</li> </ul>
	<ul> <li>One Micro-B USB port with native RS232, serial port, intended for service only</li> </ul>
	<ul> <li>Maximum of 500 mA power output at 5V or 2.5W for each USB port</li> </ul>
	<ul> <li>Micro Secure Digital Standard Capacity (HDSC) slot for nonvolatile storage of applications or file expansion up to 32GB (standard-definition [SD] card speed Class 4 or later recommended)</li> </ul>
Physical buttons	<ul> <li>Cap sense "source" button to swap between HDMI input and the DX80 interface. Button is lit when HDMI input is connected.</li> </ul>
	Volume up/down
	• Mute
Visual indicator	Camera LED indicator (incoming calls, camera activation)
	Microphone LED indicator (mute)
	Power button LED indicator (power on, sleeping, message waiting, error)     Source button (monitor mode)
Dhysical dimensions	Source button (monitor mode)  20.2 v 20.2 v 3.5 in (54.2 v 50.5 v 8.0 cm)
Physical dimensions (HxWxD)	20,2 x 22,2 x 3,5 in. (51.2 x 56. 5 x 8.9 cm)
Weight	15,65 lb (7.1 kg)
Power	Rated: 60 W maximum
	Low Power Standby mode
	Integrated EnergyWise support
Physical security	Compatible with Kensington Security Slot
Connectivity	
Ethernet	<ul> <li>Internal 2-port Cisco Ethernet switch allows for a direct connection to a 10/100/1000BASE-T Ethernet network (IEEE802.3i/802.3u/802.3ab) through an RJ-45 interface with single LAN connectivity for both the phone and a co-located PC.</li> </ul>
	<ul> <li>The system administrator can designate separate VLANs (IEEE 802.1Q) for the PC and phone, providing improved security and reliability of voice and data traffic.</li> </ul>
Desktop Wi-Fi	As an alternative to wired Ethernet, the DX80 supports a Wi-Fi radio with integrated antenna enabling connectivity to a Wi-Fi access-point infrastructure, thereby saving on the labor costs of pulling Ethernet cables to every work location.

#### Licensing

Phone licensing depends on the call-control platform and its policies. For the Cisco Unified Communications Manager, the Cisco DX80 requires a minimum-level Enhanced IP User Connect License (UCL) for Cisco UCM Version 8.6.2 and later. There are no special licenses plus phone bundles for tier 2 distributors. The DX80 is not supported on third-party call-control systems.

#### Warranty Information

The DX Series endpoints are covered by Cisco's 1-Year Limited Hardware Warranty. Find warranty information on Cisco.com at the Product Warranties page.

### **Ordering Information**

Help customers understand all the components or parts they need to purchase in order to install and use the product. This section also provides a direct link to the Cisco Ordering Tool and lists part numbers for customer convenience.

## Cisco Services

Cisco Services make networks, applications, and the people who use them work better together.

Today, the network is a strategic platform in a world that demands better integration between people, information, and ideas. The network works better when services, together with products, create solutions aligned with business needs and opportunities.

The unique Cisco Lifecycle approach to services defines the requisite activities at each phase of the network lifecycle to help ensure service excellence. With a collaborative delivery methodology that joins the forces of Cisco, our skilled network of partners, and our customers, we achieve the best results.
